

SnapT — Privacy Policy

Effective date: [Insert date] **Contact:** hello@snaptcarib.app

DRAFT — REQUIRES LEGAL REVIEW. This document has not been reviewed by an attorney and must be checked against applicable Saint Lucian data protection requirements before publication.

This Privacy Policy explains what personal data SnapT collects, why, how it's used and shared, and the choices you have. It should be read alongside the **Data Retention Policy** (how long we keep data) and, for creators, the **Background Check & Vetting Disclosure** (vetting-specific data).

1. What we collect

Account information: name, email, phone number, password (stored encrypted), country/region, currency preference.

Booking information: service details, dates/times, meeting point location, payment records, messages exchanged through in-app chat, session check-in and safety-code data.

Creator-specific information (creators only): identity documents, background check results, specialties, availability, service area, banking/payout details.

Content: photos and video you upload or that a creator captures for you, and the delivered edited content.

Device and usage information: device type, app version, crash logs, general usage analytics, and — where you enable it — push notification tokens and approximate location (for service-area matching and live session features).

Emergency contact information (optional): if you choose to add one, the name and email address of a person you can share session details with.

We do not collect more than we need for the purpose described, and payment card details are never stored by SnapT directly — see Section 4.

2. How we use your data

- To create and manage your account, and to operate the marketplace (matching, booking, payment, delivery)
- To verify creator identity and eligibility (background checks, per the Background Check & Vetting Disclosure)
- To process payments and payouts
- To send you notifications about your bookings, account, and — where you've opted in — promotions (see your in-app Notification Settings)
- To investigate safety reports, disputes, and policy violations
- To improve the Platform (aggregated/anonymized analytics)

- To comply with legal obligations, including financial record-keeping

We do not sell your personal data.

3. Who we share it with

- **The other party to a booking** — a client and creator see the information necessary to complete the session (name, relevant profile details, meeting point, chat messages). Raw footage is visible only to the assigned creator/editor, never to the client, per the Content & Usage Policy.
- **Service providers who help us operate:** Supabase (database/auth), Cloudflare (file storage), Stripe (payments), Firebase (push notifications), Resend (email), and our background check provider (creator identity/vetting only). These providers process data on our behalf under their own data protection commitments.
- **Emergency contacts**, only when you actively use "Share my session," and only the specific session details, not your full account data.
- **Legal and safety exceptions:** we may disclose data where required by law, to protect someone's safety, or to investigate a Trust & Safety violation.
- We do not share your data with advertisers, and Snapt does not run third-party ad networks in the app.

4. Payments

We use Stripe to process payments. Snapt does not store your full card number — only a payment token and limited metadata (card brand, last 4 digits) needed to display your saved payment methods.

5. Data retention

How long we keep each category of data is set out in the **Data Retention Policy**. In short: we keep data only as long as needed for the purpose collected, legal record-keeping requirements, or active disputes, then delete or anonymize it.

6. Your rights and choices

- **Access and correction:** you can view and update most of your information directly in Profile → Edit Profile.
- **Notification preferences:** control what you're notified about in Profile → Notification Settings (certain account/security/safety notifications cannot be turned off).
- **Account deletion:** Profile → Delete Account. See the Data Retention Policy for what happens to your data afterward.
- **Data requests:** you may ask what data we hold about you, request a copy, or request deletion beyond what standard account deletion covers, by emailing hello@snaptcarib.app. [Attorney to confirm specific rights available under Saint Lucian law and any applicable regional frameworks as Snapt expands.]

7. Children

Snap accounts are not available to anyone under 18. Where minors appear as subjects of a session (e.g., a family shoot), that's governed by the Minor Safety & Age Policy, not by minors holding their own account or data relationship with Snap.

8. International data

Snap's infrastructure providers may process data outside Saint Lucia. Where this happens, we require providers to maintain appropriate safeguards. [Attorney to confirm specific transfer mechanism language required.]

9. Security

We use reasonable technical and organizational measures to protect your data, including encryption of sensitive data at rest (such as identity documents) and access controls restricting who at Snap can view sensitive records. No system is completely secure, and we encourage you to use a strong, unique password.

10. Changes to this policy

We may update this Privacy Policy from time to time. Material changes will be communicated in the app.

11. Contact

Questions or requests about your data: hello@snapcarib.app
