

SnapT — Trust & Safety Policy (Community Guidelines)

Effective date: [Insert date] **Contact:** hello@snaptcarib.app

SnapT connects real people for in-person photo and video sessions. That only works if everyone — clients and creators — can trust that the person they're meeting is who they say they are and will treat them with respect. This policy sets the standards of behavior on SnapT and explains what happens when they're broken. It applies to everyone who uses the platform, in the app and during sessions.

1. Our safety foundations

- **Creator vetting.** Every creator offering in-person sessions completes identity verification and a background check before approval.
- **Session check-in.** Every in-person session begins with a safety code exchange: your creator must verify the code shown in your app before the session starts. Never proceed with a session if the code exchange doesn't happen — it means the person in front of you may not be your assigned creator.
- **In-app communication.** All pre-session communication happens through in-app chat. Keep it there — it protects both sides and gives us a record if something goes wrong.
- **Payments stay on-platform.** Never pay, or accept payment, outside the app. Off-platform payment removes every protection this policy provides.

2. Standards for everyone

All users must:

- Treat others with respect and courtesy, in chat and in person.
- Be truthful in profiles, bookings, and communications.
- Show up on time to confirmed sessions, or cancel/reschedule properly through the app.
- Respect others' privacy. Do not share another user's personal information, images, or location.
- Comply with all applicable laws.

The following are prohibited for all users, without exception:

- Harassment, intimidation, threats, or stalking.
- Discrimination or hate speech based on race, colour, religion, sex, gender identity, sexual orientation, disability, nationality, or any similar characteristic.
- Sexual advances, sexual comments, or requests for sexual content or contact in connection with any booking.
- Violence or threats of violence.
- Attending a session impaired by alcohol or drugs.

- Bringing unannounced third parties to a session in a way that makes the other party feel unsafe.
- Fraud, misrepresentation, or use of another person's identity or account.
- Any activity involving the exploitation or endangerment of minors. This results in immediate permanent removal and, where appropriate, referral to law enforcement. See the Snap Minor Safety & Age Policy.

3. Additional standards for creators

Creators are professionals working with members of the public and are held to a higher standard:

- Complete the safety check-in for every session, every time.
- Photograph or film only what the booking covers and only people who have consented to be photographed.
- No physical contact with clients beyond what is strictly necessary and consented to (e.g., adjusting a pose only with explicit permission).
- Never solicit clients off-platform, request extra payment, or ask for tips.
- Follow the Snap Minor Safety & Age Policy without exception for any session involving anyone under 18.

4. Additional standards for clients

- The meeting point you set must be a genuine, safe, publicly appropriate location for the session booked.
- The people present at your session must be as described in your booking.
- Requests to the creator must stay within the scope of the booked service. Creators have the right to decline requests outside that scope, or that make them uncomfortable, without penalty.

5. During a session: if something feels wrong

Either party may end a session at any time if they feel unsafe. Safety always comes before completing a booking.

- If you feel unsafe, leave the situation first, then report through the app or to hello@snaptcarib.app.
- If you are in immediate danger, contact local emergency services (911 in Saint Lucia) before anything else.
- A session ended for genuine safety reasons will not automatically penalize the person who ended it. Each case is reviewed individually.

6. Reporting

You can report a user, session, or piece of content:

- From the relevant booking or profile screen in the app ("Report a Problem"); or
- By email to hello@snaptcarib.app.

Reports are reviewed by our team. We may contact you for more information. We do not disclose the identity of reporters to the person reported, except where required by law.

We do not tolerate retaliation. Penalizing, threatening, or harassing someone for making a good-faith report is itself a violation of this policy.

7. Enforcement

Depending on severity and history, violations may result in:

- A warning;
- Removal of content;
- Temporary suspension of the account;
- Permanent removal from the platform;
- Withholding of payouts connected to the violation (creators); and/or
- Referral to law enforcement.

Safety-related violations — including harassment, sexual misconduct, violence, and any violation involving a minor — may result in immediate permanent removal without prior warning, regardless of prior history.

Reliability issues (cancellations, no-shows) are handled under the strike system described in the Cancellation & Refund Policy and Creator Agreement.

8. Appeals

If you believe an enforcement action against you was made in error, you may appeal by emailing hello@snaptcarib.app within 14 days of the action. Appeals are handled under the Snapt Dispute Resolution Policy. Actions taken for the safety of other users may remain in effect while an appeal is reviewed.

9. Changes

We may update this policy as the platform grows. Material changes will be communicated in the app.
