

SnapT — Content & Usage Policy

Effective date: [Insert date] **Contact:** hello@snaptcarib.app

This policy explains what content may and may not be created, uploaded, or delivered through SnapT, and who owns and can use content once it's delivered. It applies to clients (including footage you upload for editing) and creators (including everything you shoot and deliver through the platform).

1. Ownership of delivered content

1.1. Final deliverables belong to the client. Once a session or editing order is completed and paid, the client owns the final edited photos and videos delivered through the platform, and may use them for personal or commercial purposes without further permission or payment.

1.2. Raw footage stays in the platform. Raw, unedited footage captured by a creator is never delivered to or accessible by clients. It is retained and deleted according to the SnapT Data Retention Policy. Clients who want additional edits from a past session's raw footage can order them as a new editing order while the footage is retained.

1.3. Client-uploaded footage remains the client's. Footage a client uploads for remote editing remains the client's property. Editors receive access solely to perform the edit.

2. Portfolio and marketing use

2.1. Creators may feature delivered work in their SnapT profile portfolio **only with the client's consent**, requested and recorded through the app.

2.2. SnapT may feature delivered work in platform marketing **only where both the client and the creator have consented**.

2.3. Consent can be withdrawn at any time by emailing hello@snaptcarib.app, and the content will be removed from portfolio/marketing use within a reasonable period.

2.4. Neither creators nor SnapT will use content involving minors for portfolio or marketing purposes without explicit written consent from the minor's parent or legal guardian.

3. Prohibited content and uses

The following may not be created, uploaded, requested, edited, or delivered through SnapT:

- **Content involving the sexual depiction of anyone**, and any sexualized content involving a minor in any form — the latter results in immediate permanent removal and referral to law enforcement.
- **Content of people who have not consented** to being photographed or filmed, where consent would reasonably be required (private individuals as the subject of the shoot). Incidental background passersby in public spaces are not a violation.
- **Content intended to harass, threaten, defame, or embarrass** any person.

- **Deceptive manipulated content**, including edits that place a real person in a fabricated situation in a way intended to deceive (deepfake-style edits), or impersonation of any person.
- **Content that infringes intellectual property** — including footage the uploader has no rights to, and edits incorporating unlicensed music, logos, or third-party material.
- **Content documenting or facilitating illegal activity.**
- **Hate content**, including symbols or messaging promoting hatred or violence against protected groups.
- **Graphic violence or gore.**

4. Client responsibilities when uploading footage

By uploading footage for editing, you confirm that:

- You own the footage or have the right to have it edited;
- Everyone identifiable in the footage consented to being filmed (where consent is reasonably required); and
- The footage and your requested edit comply with Section 3.

5. Creator responsibilities

Creators must:

- Shoot only within the scope of the booking and with the consent of the people being photographed;
- Decline and report client requests that violate Section 3 — declining a prohibited request will never count against a creator;
- Use only properly licensed music, fonts, stock assets, and other materials in edits; and
- Never share, publish, sell, or reuse client footage or deliverables outside the platform without consent (see the Creator Agreement, Section 8).

6. Moderation

Content uploaded or delivered through SnapT may be reviewed by our moderation team, including proactively and in response to reports. We may remove content, cancel orders, suspend accounts, or take other action under the Trust & Safety Policy where this policy is violated. Where we cancel an order due to a client's violation of this policy, no refund is owed. Where a creator's deliverable violates this policy, the client is refunded and the creator receives no payout for that order.

7. Reporting content

Report content concerns through "Report a Problem" in the app or at hello@snaptcarib.app.

8. Changes

We may update this policy from time to time. Material changes will be communicated in the app.
