

SnapT — Payment & Payout Policy

Effective date: [Insert date] **Contact:** hello@snaptcarib.app

This policy explains how money moves on SnapT: what clients pay, when they're charged, what creators earn, and when payouts happen. It should be read together with the Cancellation & Refund Policy and, for creators, the Creator Agreement.

1. Pricing

1.1. All prices on SnapT are **standardized platform prices**. Creators do not set their own rates, and prices are not negotiable. The price shown at checkout is the price — no tipping is expected or supported, and no one may request payment outside the app.

1.2. Prices shown include the package price plus the client service fee (Section 3), each shown as a separate line item before payment.

2. Currency

2.1. SnapT operates in **US Dollars (USD)** as its base currency. All amounts are stored and processed in USD.

2.2. You may choose to display prices in **Eastern Caribbean Dollars (XCD)** in your app settings. XCD amounts are display conversions at the fixed peg of **2.70 XCD = 1.00 USD**. Your payment method is charged in USD; your bank or card issuer determines any conversion applied on their side.

3. Client charges

3.1. **Service fee.** An **8% client service fee** is added to each order, shown as its own line item at checkout. This fee supports platform operations including creator vetting, matching, secure payments, and support.

3.2. **When you're charged.** Payment is collected in full at the time of booking, via our payment processor (Stripe). Your booking is not confirmed until payment succeeds.

3.3. **Failed payments.** If payment fails, the booking is not created. If a post-booking charge fails (e.g., a late-cancellation fee where a refund adjustment applies), we may retry the payment method on file and suspend further bookings until resolved.

3.4. **Add-ons.** Additional paid revision rounds and other add-ons are charged at the time you order them.

4. Refunds

Refund eligibility is governed by the **Cancellation & Refund Policy**. Approved refunds are returned to the original payment method, in USD, typically within 5-10 business days depending on your bank.

5. Creator earnings

5.1. Platform fee. SnapT deducts a **32% platform fee** from the gross order price. The creator's payout is the remaining **68%**. The fee reflects the full cost of operating the platform in the Caribbean, including payment processing, vetting, matching, hosting, and support.

5.2. Promotional rates. SnapT may offer reduced promotional fee rates for limited periods. Where a promo rate applies, the Earnings screen shows the standard rate struck through alongside the promo rate applied.

5.3. Earnings states. Earnings appear in the Earnings screen as:

- **Pending** — the order is completed but within the holding window;
- **Available** — cleared for payout;
- **Paid out** — transferred to your connected payout account.

5.4. Holding window. Completed order earnings are held for **48-72 hours** before becoming Available, to accommodate revision requests and dispute checks.

5.5. Payouts are made in USD via **Stripe Connect** to the creator's connected account. Creators are responsible for keeping their payout account valid and for any fees their own bank applies to incoming transfers.

5.6. Withholding. Earnings connected to an open dispute, chargeback, suspected fraud, or policy investigation may be withheld until the matter is resolved, per the Creator Agreement.

6. Chargebacks and payment disputes

If you believe you were charged incorrectly, contact hello@snaptcarib.app before initiating a chargeback with your bank — most issues are resolved faster this way. Chargebacks filed on legitimate charges may result in account suspension while the matter is investigated.

7. Taxes

Prices shown [include / exclude — confirm with attorney/accountant] applicable taxes. Creators are independent contractors responsible for their own tax obligations on earnings, per the Creator Agreement.

8. Changes

Fee levels and this policy may change over time. Fee changes apply prospectively only: the fees in effect when a booking is placed are the fees that apply to that booking. Creators receive at least 30 days' notice of standard platform fee changes.
