

SnapT — Minor Safety & Age Policy

Effective date: [Insert date] **Contact:** hello@snaptcarib.app

Family shoots, birthday parties, christenings, school events — sessions involving children are a normal and welcome part of what SnapT is for. This policy exists to make sure they happen safely, with the right adults involved and the right consent in place, every time. It applies to all users and all bookings.

1. Age requirements for accounts

1.1. **You must be at least 18 years old** to create a SnapT account, book a session, upload footage, or apply to be a creator. Accounts found to belong to anyone under 18 are removed.

1.2. Creators must be at least 18 and complete identity verification and (for in-person services) a background check before approval.

2. Minors as session subjects

Minors (anyone under 18) may be photographed or filmed in a SnapT session **only** under all of the following conditions:

2.1. **The booking client is a parent or legal guardian** of the minor, or has the documented authorization of the parent/guardian (e.g., booking a shoot for a school or community event with organizer authority).

2.2. **A responsible adult is present for the entire session.** A creator must never be alone with a minor at any point. If the supervising adult leaves, the creator must pause the session until they return.

2.3. **The booking accurately discloses that minors will be involved.** [Product note: add a "session includes children under 18" disclosure to the booking flow so this is captured structurally, not just by policy.]

2.4. **Consent for the shoot comes from the parent/guardian**, not the minor. For minors old enough to express a preference, their comfort matters too — creators must stop photographing any child who is distressed or unwilling, regardless of guardian instruction.

3. Standards for sessions involving minors

- Content must be age-appropriate in every respect: activities, poses, wardrobe, and setting. Nothing sexualized involving a minor is ever acceptable in any form, context, or degree — violations result in immediate permanent removal and referral to law enforcement.
- Creators must direct all communication about the session to the supervising adult, not the child.
- Creators must not request or exchange contact information with a minor, communicate with a minor outside the session, or arrange to meet a minor outside a booked, supervised session.

- No images of a minor may be used for creator portfolios or Snapt marketing without explicit written parent/guardian consent (see Content & Usage Policy, Section 2.4).

4. Uploaded footage involving minors

Clients uploading footage for remote editing that includes minors confirm they are the parent/guardian of the minors shown, or have the parent/guardian's authorization. All Section 3 content standards apply equally to uploaded and edited footage.

5. Reporting

Anyone with a concern about a minor's safety in connection with Snapt — a session, content, or behavior — should report it immediately via "Report a Problem" in the app or hello@snaptcarib.app. Reports involving minors are treated at the highest priority.

If a child is in immediate danger, contact local emergency services (911 in Saint Lucia) first.

6. Enforcement

Violations of this policy result in immediate suspension pending review at minimum. Any sexual, exploitative, or grooming behavior involving a minor results in immediate permanent removal from the platform and referral to law enforcement, and Snapt will cooperate fully with any resulting investigation.

7. Changes

We may update this policy from time to time. Material changes will be communicated in the app.
