

# SnapT — Dispute Resolution Policy

**Effective date:** [Insert date] **Contact:** [hello@snaptcarib.app](mailto:hello@snaptcarib.app)

Most issues on SnapT are resolved directly: a revision request fixes an editing concern, a reschedule fixes a timing conflict. This policy covers what happens when they aren't — when a client and creator disagree about what happened or what's owed, or when someone appeals an enforcement action. It should be read with the Cancellation & Refund Policy, Trust & Safety Policy, and Creator Agreement.

---

## 1. What counts as a dispute

- **Quality disputes** — delivered content allegedly does not meet the package specification (e.g., far fewer photos than the stated range, unusable footage), after the included revision round has not resolved it.
- **Fulfillment disputes** — disagreement over whether a session happened as booked, including contested no-shows, sessions cut short, or sessions that materially deviated from the booking.
- **Conduct disputes** — reports of behavior during a session, handled primarily under the Trust & Safety Policy, with any financial outcome resolved under this policy.
- **Enforcement appeals** — appeals of strikes, suspensions, removals, or withheld payouts.

Simple refund eligibility under the published cancellation tiers is not a dispute — it's applied automatically per the Cancellation & Refund Policy.

## 2. Step one: the revision round (quality issues)

For concerns about delivered content, the included free revision round is the required first step. Describe specifically what needs to change; the creator completes the revision in good faith. Most quality concerns end here. A quality dispute may be opened only if the revised delivery still allegedly fails to meet the package specification.

## 3. Opening a dispute

3.1. Open a dispute from the relevant booking in the app ("Report a Problem") or by emailing [hello@snaptcarib.app](mailto:hello@snaptcarib.app) with the booking reference.

3.2. **Time limit:** disputes must be opened within **7 days** of the session date or content delivery (whichever is later). This aligns with the payout schedule — creator earnings clear shortly after the holding window, and late disputes limit what remedies remain available.

3.3. When a dispute is opened before payout clears, the affected amount is held until resolution. Neither refund nor payout is finalized while the dispute is open.

## 4. How disputes are reviewed

4.1. Both parties are notified and may submit their account of events and supporting evidence within **72 hours** of being notified.

4.2. Evidence SnapT considers includes: in-app chat logs; booking details, check-in records, and safety code verification status; timestamps and session GPS records where available; the delivered content measured against the package specification; and both parties' statements and history on the platform.

4.3. SnapT's review team assesses the evidence and issues a decision, normally within **5 business days** of the evidence deadline. Complex cases may take longer; both parties are informed if so.

## 5. Possible outcomes

Depending on findings, outcomes may include one or more of:

- Full or partial refund to the client;
- Full, partial, or no payout to the creator;
- A required additional revision at no charge;
- A fee-free rebooking;
- Removal or adjustment of a strike;
- Enforcement action under the Trust & Safety Policy; or
- No change, where the evidence supports the original outcome.

Where evidence is genuinely inconclusive in a fulfillment dispute, SnapT may resolve in favor of the client on refund while still compensating the creator in whole or part, at SnapT's discretion — the cost of genuine ambiguity should not fall entirely on either party.

## 6. Appeals

6.1. Either party may appeal a dispute decision, or an enforcement action, within **14 days** by emailing [hello@snaptcarib.app](mailto:hello@snaptcarib.app) with the case reference and the specific grounds (new evidence or a material error in the review).

6.2. Appeals are reviewed by someone other than the original decision-maker where team size allows. The appeal decision is SnapT's final internal determination.

## 7. Chargebacks

Filing a card chargeback while a SnapT dispute is open, or after accepting a dispute resolution, may result in account suspension while the chargeback is contested. We strongly encourage using this process first — it is faster and preserves your account standing.

## 8. Legal rights

Nothing in this policy limits any non-waivable rights you have under applicable law, including consumer protection law in Saint Lucia. This policy is SnapT's internal resolution process, not a substitute for legal remedies. [Attorney to confirm interaction with governing-law and forum clauses in the Terms of Service.]

## **9. Changes**

We may update this policy from time to time. The version in effect when a dispute is opened governs that dispute.

**Open or ask about a dispute: [hello@snaptcarib.app](mailto:hello@snaptcarib.app)**
